## SELECTED RESEARCH EXPERIENCE

<b>Evaluating LLM-Generated Silicon Samples in Social Science Research</b> Research Assistant   Institute for Digital Government and Governance, Tsinghua University <ul style="list-style-type: none"><li>Built and tested 1,000+ LLM-based silicon samples across survey and experimental tasks.</li><li>Synthesized frontier literature on LLMs in social science and contributed to an international knowledge-sharing network.</li></ul>	9/2025 - Present
<b>IMF Loan Programs and Reform Policy Effectiveness Case Study</b> Research Assistant   <i>Peking University</i>   Advisor: Prof. Jia Chen <ul style="list-style-type: none"><li>Designed research framework and coordinated data collection on IMF loan programs and policy conditionality.</li><li>Developed cross-country and longitudinal empirical design using MONA and macroeconomic datasets.</li><li>Conducted quantitative analysis (panel models, DID) to evaluate the effects of IMF loan conditions.</li></ul>	8/2025 - Present
<b>Chinese Political Elite Database (CPED) Development &amp; Quantitative Research</b> Lead Research Assistant   Advisor: Prof. Junyan Jiang	6/2022 – 8/2025

- Managed biographical data on 9,000+ career records of Chinese elites; automated cleaning and coding using Python; Initiated training an agent to auto-update official resumes.
- Authored paper accepted at 2025 MPSA, applying DID-RDD to analyze the relationship between cadre promotions and political loyalty versus technical expertise before and after the 2018 reform.

#### **National Project on Xi Jinping's thoughts on party building**

12/2022 - 6/2024

Research Assistant | *Chinese Academy of Sciences* | Advisor: Prof. Tingda Wang

- Conducted qualitative and text-as-data analysis (topic modeling, discourse analysis) on central documents/speeches.
- Contributed to 10+ research papers/reports and theoretical frameworks on party institutional development.

#### **China Urban Governance Innovation Research and Reward Program**

7/2021 - 10/2021

Research Assistant | *Peking University Research Center for Chinese Politics* | Advisors: Prof. Haiting Fei; Prof. Hua Ju

- Conducted field surveys and interviews with officials in Lishui, Zhejiang, evaluating digital governance reforms for its recognition as a "China Urban Governance Innovation Case".
- Authored undergraduate thesis for the Politics, Law & Society Program, analyzing county-level cadre evaluation systems, highlighting how digital governance corrected incentive distortions.

#### **Emergency Management Systems in Japan: Study on Crisis Response and Disaster Mitigation**

4/2021 - 11/2021

Research Assistant | *Peking University Institute of Public Governance* | Advisor: Prof. Zhili Bai

- Analyzed Japan's disaster management framework, mapping national-prefectural-municipal authority boundaries.
- Co-authored paper analyzing Tokyo's case, highlighting wide-area coordination mechanisms for trans-regional crisis.

#### **Urban Digital Governance Models and Development of the Nanjing Digital Governance Center**

12/2020 - 4/2021

Research Assistant | *Peking University Institute of Urban Governance* | Advisor: Prof. Tiyan Shen

- Contributed to project report on "Unified Network Governance," introducing a governance capacity framework.
- Proposed strategic roadmap for institutional restructuring and digital governance reform in Nanjing.

#### **Political Socialization and National Identity of College Students: A Survey of Chinese Elite Students**

11/2020 - 6/2021

Research Assistant, Third Author | *Peking University* | Advisor: Prof. Yanjun Liu

- Co-authored an award-winning study on how education, media, and gender identity shape youth political attitudes.
- Designed survey instruments, implemented sampling strategies, and conducted logistic regression using Stata.

#### **Agent or Trustee: An Explanation from the Policy Field**

11/2020 - 6/2021

Research Assistant, First Author | *Peking University* | Advisor: Prof. Xiao Ma

- Led an award-winning study on bureaucratic autonomy based on officials' professional backgrounds, linking autonomy to policy effectiveness.
- Built databases of China's civil service exam positions and conducted factor analysis using Stata/Python.
